DEW

Fräsch was founded on the belief that creating healthy and beautiful office environments leads to a happier and highly motivated workforce.

DEW

Acoustical Ceiling Baffle

Form and function are the driving force behind the creation of DEW with an acute focus on architectural license and harmony. As a high performance suspended acoustic system, it redefines artistic design potential in that the size, volume and color of each cloud can be customized to suit any space, from small studios and offices to large multi-volume auditoriums, galleries and reception areas. The infinite assembly configurations offer unique results to each cloud, allowing every environment to stand out as an architectural statement transforming ceilings and soffits into exciting, sound absorbing suspended landscapes.

Application Ceiling Suspended

Hardware: [quantities based on configuration]

- Aircraft Cable
- Saddle Bracket
- Griplock

Material Content 9/12 mm 100% PET (55% recycled content)

Fire Rating Class A per ASTM E-84, based on 9mm white

Acoustics

Frequency (Hz)	250	500	1K	2K	NRC
NRC	0.57	0.90	1.36	1.61	1.10
Sabins per m ²	4.45	7.05	10.62	12.61	

Test was conducted while product was in its actual installation setting

All NRC testings assumes one face/one object and does not account for the product thickness

Environment Low VOC;
Post-Consumer Recycled Content
100% Recyclable

Installation

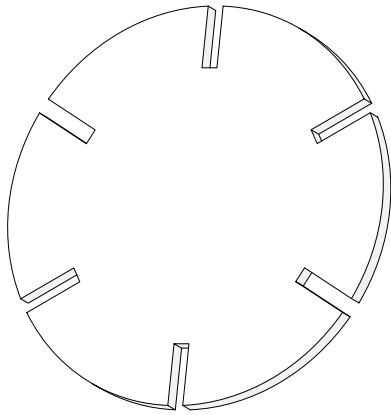

Installation requires minimal assembly of PET assemblies and suspension hardware. Mounting point positions are adjustable. See the DEW installation manual for details.

Country of Origin USA

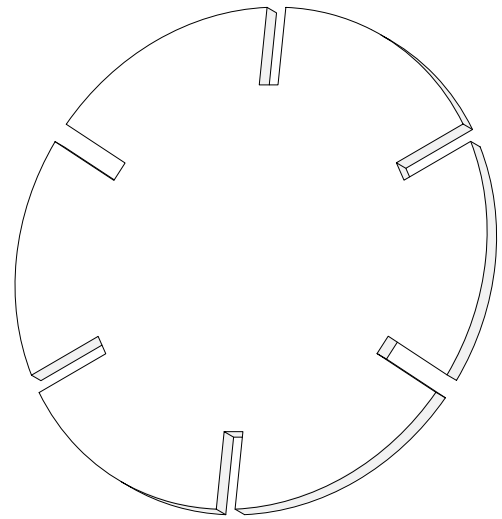

Warranty 2 Years
