

TIMBER

Fräsch was founded on the belief that creating healthy and beautiful office environments leads to a happier and highly motivated workforce.

TIMBER

Acoustic Ceiling Baffle

Whether it be a single unit suspended over a workstation or a cluster of units suspended in an almost unlimited array of patterns, levels and angles, Timber is sure to create a modern expression of creative freedom in acoustic ceiling design.

Timber can be used to define individual spaces as clusters or arranged to encompass entire ceiling footprints in almost any desired pattern or orientation that creativity can allow offering an extraordinary degree of uniqueness to every installation.
