

VINE

Fräsch was founded on the belief that creating healthy and beautiful office environments leads to a happier and highly motivated workforce.

VINE

Suspended Acoustic System

Form and function are the driving force behind the creation of DEW with an acute focus on architectural license and harmony. As a high performance suspended acoustic system it redefines artistic design potential in that the size, volume and colour of each cloud can be customised to suit any space, from small studio spaces and offices to large multi-volume auditoriums, galleries and reception areas.

The infinite assembly configurations offer unique results to each cloud allowing every environment to stand out as an architectural statement transforming ceilings and soffits into exciting, sound absorbing suspended landscapes.

Application	Ceiling Suspended
Component:	Complete Vine Set - 79" L x 79" W x 24" H
Coverage	Approx 43 SQFT

Material Content 12 mm 100% PET (55% recycled content)

Fire Rating Class A per ASTM E-84, based on 9mm white

Acoustics

NRC 0.35 0.54 0.85 1.22 0.75

NRC rating is based on one full sheet of 12mm PET material

Environment Low VOC;
Post-Consumer Recycled Content
100% Recyclable

Installation

VINE is suspended from the ceiling. Product is assembled by customer using built in friction slots. Hardware for mounting to the ceiling will utilize our spike bracket, griplock, and aircraft cable mounting method.

Hardware Spike bracket, griplock, and aircraft cable mounting method.

Country of Origin USA

Warranty 2 Years
